NOTE

* Heavy cotton art papers may not consistently auto-feed in the top main paper tray. They can be fed by hand easily. Returns on this paper are not accepted on the basis of feed problems.

** Not recommended for front feeding HP printers due to thickness of media.

100% Made in USA

Made using refined 100% cotton, **Aurora Art Natural 285** brings elegance, warmth, and nuance to your photography and art prints. This acid-free paper features a pleasing natural white tone and semi-smooth surface. Plus, Aurora Art Natural contains no optical brighteners. This is a benefit because the paper will remain its original shade over a long period of time. As an added bonus, you can print on both sides of Aurora. Aurora's 285gsm weight give you a heavy, professional feel ideal for your best work. 100% made in the USA.

IDEAL FOR

- Those seeking the "fine art" look
- Prints intended for long term display
- Landscapes, portraits, neutral tone black & white, art reproduction prints

GOOD TO KNOW

- Acid free base stock and coating
- Print photo quality on both sides
- 100% cotton fiber and semi-smooth surface
- Paper is ISO 9706 and ANSI Z 39.48-1992 certified
- No optical brighteners
